WAINWRIGHT, ALBERTA, THURSDAY, SEPTEMBER 1, 1910

L. S. GOWE, MANAGER

Alberta Crops Will Average 11 Bushels According to Estimate of Pres Press

Winnipeg, Aug. 23.—The Pres Press this morning publishes its annual crop report summarized from reports of twelve crop inspectors who during the past three weeks have been scattered throughout the prairie provinces. The Pres Press states Manitoba has borne the brunt of an exceptional season, the light snow fall of the previous winter with a warm March, cold April and May, followed by a dry June was a combination too much for almost any country, yet the Manitoba crop will be a paying crop.

There is a sharp division in conditions in Alberta, the southern half suffering most severely from drought. A conservative estimate is that one-fifth of 128,070 acres sown last fall to wheat will not be cut, conditions fluctuating between fifteen and forty-five bushels per acre and an average of 19, bringing aggregate of 1,955,084 bushels. The sample is fine except a few places where excessive heat caused a little wrink-

ling. Of spring wheat more than half of 488,188 acres sown in southern Alberta and it is not possible to gauge the number of acres plowed down that never came up, but estimating the northern crops at 10 or 17 bushels and an average of 11 bushels on the amount sown is nearly as correct as is possible to come to, or little more than half a crop, figuring an average for the past 21 years. With the slight rainfall, 2 inches in 13 months' time, it is wonderful there is any crop in the southern division.

The northern parts, Edmonton, Vegreville and Olds, are anxious to disclaim any suffering from drought and there the crops will run twenty to thirty bushels per acre. While the average may seem low to northern districts, it is fair for the entire province.

The southern oat crop is almost a total failure, but north of the C. P. R. main line the crop is generally good and for the year the average will be about thirty bushels on two-thirds of acreage sown.

Mr. Pawling Makes Report

Explains to Board of Trade Why Exhibit Was Not Shown—A Series of Misadventures—Some Valuable Lessons Learned.

A meeting of the executive of the Board of Trade was held on Monday evening last, for the purpose of hearing the report of the gentlemen who were sent to Edmonton in charge of the Wainwright exhibit—which was not exhibited.

Those present at the meeting were President Morrison, Secretary King, T. G. Cook and C. T. Lally.

Mr. Pawling, who was recognized as having the chief responsibility in connection with the exhibit, explained the situation from his point of view, and related the numerous misadventures which prevented the exhibit from being shown as was intended.

The first day was wet, and it was uncertain whether the Fair would be held or not. Then it was discovered that the case would not go through the doors of the main building, and a space was secured underneath the grand stand for the exhibit. When, however, they went to put the exhibit there, they found that the Exhibition authorities having decided that the Wainwright exhibit was not going to be put up, had appropriated the space.

It was a chapter of unfortunate accidents, according to Mr. Pawling, who expressed great regret at the way things had turned out.

Mr. Lally, as well as Mr. Gano and Mr. McLean, offered to refund the money allowed them for expenses, but the Board of Trade would not hear of that.

The people of the town generally, as well as the Board of Trade, were greatly disappointed over the fiasco, but some lessons have been learned which may partially compensate for the disappointment.

Would Put Him Out of Office

London, Eng., Aug. 29.—John Redmond, the Irish parliamentary leader, in a speech at Kilkenny said, if Premier Asquith did not fulfill his pledge to give Ireland home rule after the Lords' veto is abolished, the Irish party would put him out of office.

William O'Brien invaded Mr. Dillon's territory in Mayo and declared in a speech, that the government had never given a definite promise of home rule, but had fooled Redmond.

A resolution was passed urging Americans to refuse to subsidize Redmond and O'Connor who were going to the United States on a begging tour.

Stone throwing and slugging, and firing off of revolvers by the rival factions with the concomitant broken heads followed. The police had to separate the fighters by making charges and using their batons.

Round trip tickets on sale between all points on Grand Trunk Pacific Friday to Monday, Sept. 2nd, 3rd, 4th, and 5th. Return limit Wednesday Sept. 7th. One and one-third fare for the round trip, account Labor Day.

Separate tenders are being called in this issue of the Star by Sydneyham School District, No. 1800, for the building of a coal shed, digging a well and erecting a wire fence. See advt.

Children's Aid Society

A Children's Aid Society or a Committee empowered to act under the Children's Protection Act of Alberta should be at work in every town and village in the Province to attend promptly to cases of child neglect or cruelty, and to act in the capacity of probation officers or friends to the boys and girls who are in need of the helpful advice that only an older person can give.

The work of the Children's Aid Society is:

To rescue homeless, abused or neglected children at the earliest possible age, from their unfortunate surroundings.

The finding of foster homes for children in need of such homes and the continuance of a watchful care over any children placed in such foster homes.

To protect society against the strongest of its foes—ignorance and vice, by the securing of good home conditions for children who would otherwise grow up under the most pernicious and evil influences.

To urge upon parents the serious results found to accrue from the careless training or neglect of their children during the most impressionable years of early childhood.

To see that every child in the community has a chance to grow up to be a good citizen.

The home life of neglected children may be greatly improved by a little kindly intervention; that failing, there is a law in Alberta which protects helpless children from abuse or neglect and it should be appealed to promptly.

Homeless children should be taken care of at once and placed either in foster homes or sent to the nearest shelter where they may be cared for until foster homes are found.

Those interested in the work of the Children's Aid Society or those who know of cases of neglect or cruelty to children, or know of a home where a little child will be welcomed, are invited to write to the Superintendent of Neglected Children for Alberta, Edmonton.

Board of Trade Awards Prizes

The \$5 prize offered by the Board of Trade for the best sheaf of wheat, barley or oats, was divided between Mr. Adamson and Mr. A. Martin.

Mr. Adamson sent in a splendid sheaf of wheat, showing a great growth, and Mr. Martin's oats on spring breaking was a wonderful exhibit.

The awards were made by Mr. Pawling who had charge of the grain exhibit. The Secretary of the Board of Trade will forward a \$25 gold piece to the successful competitors.

Chinamen Trying to Get Over the Line

New York, Aug. 29.—That thirty thousand Chinese are waiting in Canada for an opportunity to enter the United States and that a fleet of gasoline launches is employed along Puget Sound smuggling Chinese and opium into the United States, is the startling statement of immigration officers who have recently made an investigation. Many contraband Chinese are landed in Canada as stowaways and are transferred to the cannery town.

Small & Co., furniture dealers, have an announcement of importance in this issue. It will pay you to read it.

Thousands of Jews Coming

Jewish Bankers Have Huge Colonization Scheme—Good Financial Backing—To Settle on Lands Northwest of Edmonton

A huge colonization scheme for the placing of thousands of the persecuted Jews of lower Russia on the broad acres of Northwestern Canada, a scheme said to be backed by the wealthiest and most prominent Jewish bankers of France, England and Germany is declared to be well under way, according to information vouchsafed today. Representatives of a syndicate working to this end have been in Western Canada for several weeks, making quiet inquiries as to suitable location.

Bankers such as the Rothschilds are declared to have committed themselves to the scheme, and to have offered large sums from which they will expect no return for ten or twenty years. The movement is not without its business side as the immigrants will be expected to make full return for the temporary help they will receive, but on the other hand they will be given free passage, will be placed on farms that will be more or less prepared for their coming and will be given such other aid as may be found necessary to give them a proper foothold in the new land.

The informant who gave particulars of the scheme stated that representatives of the syndicate were in London some six weeks ago, making inquiries from the Colonial Office, and at the Office of the High Commissioner for Canada. They wanted a tract of at least 200,000 acres in Western Canada. Since then it has been learned that the representatives who came to Canada have been looking over lands northwest of Edmonton.

Thos. J. Bisson spent Monday and Tuesday of this week in Edmonton on business.

Sir Wilfrid Not Coming This Way

Lethbridge, Aug. 31.—Sir Wilfrid Laurier arrived in Southern Alberta for the concluding portion of his tour this morning. The train lay at Crow's Nest over night.

The Premier rose early to view the Crow's Nest mountain and subsequently the vast stretch of boulder covered country left by the devastating mountain slide at Frank two years ago.

The coal industry represented by a series of busy mines in full swing was also inspected. The Premier parted with Hon. Wm. Tompkins, Ralph Smith and Senator Bostock, who accompanied him on the British Columbia tour, at Fernie, and was joined this morning by Hon. Frank Oliver, Premier Sifton of Alberta, who will travel with him through this province. The Premier's schedule has been changed, instead of proceeding again to Calgary and Edmonton, and travelling thence to Winnipeg over the Grand Trunk Pacific, his train will run over the Canadian Pacific from Medicine Hat to Winnipeg. It is possible Hon. G. Frazer will inspect the prairie portion of the Hudson's Bay en route to Pas Misjon.

W. J. McLean, the new principal of the Wainwright schools, will probably build a house here in the near future. Mr. McLean is very favorably impressed with Wainwright.

Principal McLean Confers With School Board and Makes Some Suggestions

A meeting of the School Board was held on Tuesday evening last, Chairman Pawling and Trustee Ross being present.

After a lengthy discussion the following bills were passed and ordered paid:—

R. Blovin, \$26.25; Herald Pub. Co., \$5.20; Free Press, \$33.00; Globe, \$24.30.

Secretary Fieldhouse said that the debentures had been sent to Edmonton and would be back in a day or so.

Trustee Ross asked for a copy of the specifications of the school building.

Sec. Fieldhouse informed him that the contractors having lost their plans were using his.

Trustee Ross said that each member of the Board should have a copy of the specifications as he himself would not know whether the building was being built according to plans unless he had a copy of them, and instructed Sec. Fieldhouse to have extra copies made.

A bill from E. D. Stimpson was discussed and laid over.

A discussion to the agreement with Principal McLean then took place, and Chairman Pawling asked Principal McLean, who was present, if he had anything to suggest to the Board. Mr. McLean in reply said he had a whole lot to suggest.

Secretary Fieldhouse said the Principal's salary was \$1400, and that Mr. McLean held a first-class certificate.

Trustee Ross then made a motion, which was seconded by Chairman Pawling and passed that Mr. McLean be engaged as principal for the year commencing at the beginning of the present school term.

Principal McLean asked if the Board had a property committee and Chairman Pawling informed him that they had not.

Principal McLean said the school needed three globes, and books for the library to cost about \$40.00. He said that generally a school received a government grant of \$60.00 for library purposes, and this amount would probably be given the Wainwright school next year. He also informed

the Board that the school was short of school books, especially fourth readers. Sec. Fieldhouse said that he had a small supply on hand but would order more.

Mr. McLean said he thought that \$250 would fill the bill for his requirements for library school books, etc.

Chairman Pawling and Trustee Ross said that the Board had considered that \$500 would be needed for these, and the Board did not intend to stint the school in the least.

Mr. McLean said that amount would be better. The principal further said that this school should be able to give scholars a second-class certificate.

Trustee Ross said that it was the intention of the Board to make Wainwright a central point for the district from Scott to Telford.

Mr. McLean said that he had a few recommendations to make to the Board, regarding teachers. The teachers should be in the school room ten minutes before school opened in the morning and five minutes before in the afternoon. He also asked for a form to be furnished him to keep a record of scholars' attendance, etc.

Chairman Pawling said that Mr. McLean could arrange these matters to suit himself.

Chairman Pawling asked Mr. McLean to draw up a requisition of all his requirements and forward it to the Board for consideration at their next meeting.

Trustee Ross said that as soon as no. 10 rooms were ready, all children now running the streets would be made to attend school.

Chairman Pawling said that about Nov. 1st they might shorten the noon hour and let school out half an hour earlier to enable the children from the country to reach home before dark.

The advisability of having a stable erected in connection with the school, was discussed.

Chairman Pawling said he did not like the idea of building a stable on the school property, and suggested that a lot nearby should be purchased for this purpose.

This will probably be done.

Band Dance Next Friday Evening

The young people are looking forward with great eagerness to the dance which will be given at the Auditorium, on Friday next, under the auspices of the Citizens' Band. Music for the occasion will be furnished by the Band's own orchestra, and a delightful evening is promised all who attend.

The price of the tickets is

only \$1.00, and the ladies will be admitted free of charge, as usual.

It will not be a full dress affair.

Miss Ethel Mott and Mrs. Robinson have leased the store lately occupied by McKee & Readman, and will shortly open up a first-class bakery and confectionery business.

Dr. McQueen will be absent from his office here until after the 8th inst. From that time until the end of September he will be at his Wainwright office.

STAR SHOTS

Wainwright is to have a couple of new bakeries. No doubt they will make lots of "dough."

A dispatch says that the number of feeble-minded people in Ontario is on the increase. The Liberal party should be able to extract some comfort from this information.

Sir Wilfrid is not coming this way. Is he really going to return to Ottawa without see-

ing our showman, and hearing of its remarkable journey to Edmonton on a flat car?

Society note—The depot showman, after spending a few days in the G. T. P. yards at Edmonton, has arrived home.

Editor Watt, of the Edmonton Capital, got scalded in a train wreck the other day. This is retribution. He is always roasting Mr. Cushing.

Attractions Coming Here

Citizens' Band Arrange With Walker Lyceum Bureau for Appearance Here of Five Splendid Companies, Beginning With "Twelfth Night," Oct. 12

The Citizens' Committee who have the management of the affairs of the Band have concluded arrangements with the Walker Lyceum Bureau, of Winnipeg, for the appearance in Wainwright of a series of five high-class amusement attractions during the coming fall and winter.

The first attraction of the course will be "Twelfth Night," which will be played here on the evening of October 12th.

The other attractions arranged for are as follows:

"The Merry Musicians," November 10th; "Lyceum Players," December 14th; "Managing Milled," January 19th; Robert's circle, March 22nd.

C. P. Walker's reputation in the theatrical world is a guarantee that all these attractions will be meritorious, and the people of Wainwright need have no hesitation in purchasing the pause tickets which the Committee will offer for sale.

The companies that will come to Wainwright will be exactly the same as those which will be seen at the Walker theatre, in Winnipeg, and the leading theatres in Calgary and Edmonton.

The prices will be the same for all of the attractions, viz: \$1.00 and 75 cents, but a course ticket will be sold for \$4.00.

In order to get these companies to come to Wainwright the Band have had to make a substantial guarantee, and it is to be hoped that the people of the town will show their appreciation of the committee's enterprise by generously patronizing the entertainments.

R. B. Davidson, Doc. Betts and H. Laird had a very successful duck shooting trip to Baxters Lake on Monday, returning with a bag of 110 birds. This is the record for a day's shooting around here this season. The hunters made a generous distribution of the game among their friends in town.

Archie McLean's Successful Exhibit

Archie McLean, of Wainwright, was successful in carrying off the following prizes at the Edmonton Exhibition, under the Agricultural class of horses, weight between 1300 and 1500 pounds, not registered:

Brood mare with foal by side last.

Filly or gelding, three years and under four, 1st, 2nd and 3rd.

Filly or gelding, one year and under two, 1st.

Foal of 1910, 2nd.

This is an exceedingly good showing for any one person, and Mr. McLean is to be congratulated on his success.

In conversation with the Star he stated that he sold three of his horses at a high price.

Second Bakery For Wainwright

Wainwright will probably have a second new bakery very soon. F. V. Colston, of Grenfell, Sask., has been in town for a couple of days looking over the ground, and has practically made up his mind to locate here.

Mr. Colston has conducted a very successful bakery business for several years at Grenfell, but as the store in which he is now doing business is to be torn down soon, he decided to change his location, and having heard a lot about Wainwright came here to investigate the conditions. He is greatly pleased with the town and country, and thinks well of the future prospects of the town. He has not definitely made up his mind whether he will buy an existing store or purchase a lot and build.

He left town today and will go home to close up his business, but expects to return here before long and open up business.

The business announcement of Gerow & Sutherland, the new druggists, appears in this issue. They opened up for business today.

Sam Smith who conducted a restaurant in the Small block for some months, has given up business, and gone to live on his homestead.

OUR GREAT EXHIBIT

As a result of the unusual attention attracted by our grain exhibit at Edmonton, a large number of sparrows have decided to settle in this locality. The gophers in the vicinity of the capital, are also said to have been favorably impressed. Our exhibit occupied a unique vantage point. Instead of being housed in the main building, it was the intention of the Board of Trade to hold a position of splendid isolation on the top of a flat ear, during the whole week of the Fair. The gentlemen who were sent up in charge of it, being possessed of some originality, did not adhere slavishly to their instructions, but reasoned that as there would probably be a lot of other exhibits on the grounds, this would be more prominent if left on the flat ear. It would at least be seen by the birds, and blind baggage passengers. Then again, had the exhibit been placed in the main building, no doubt a lot of people would have been hanging around it, gazing at the grain, and asking all manner of foolish questions about this district, and it would have been difficult for our representatives to get away and see the horse races and the other attractions in front of the grand stand. By not unloading the showcase, a flying bill was saved too, and another advantage was that if left on the ear, it would be all ready to bring back again without any fuss or bother. The advantages of leaving the showcase and the grain on the flat ear, it will be seen, were really overwhelming. Wainwright is to be congratulated on having sent representatives who were able to grasp the situation. Some blundering, but perhaps well-meaning persons, would have got that showcase on the grounds, even if it did cause them some bother and trouble. Or if it was impossible to get the showcase moved, they would have taken the grain any way, and arranged it in the space reserved for it, not appreciating the great advantage from an exhibition point of view of a flat ear, quite isolated from the madding throng. Wainwright, always in the front, has revolutionized the exhibition idea. In the future it will be the aim of exhibitors to get as far away from the scene of the exhibition as possible.

EDITORIAL NOTES

Every man, woman and child in Wainwright should be a booster. Keep boosting early and often, and long and loud. Soon the town will be as good as you say it is. That's what made Calgary the great city that it is today. Wainwright's prospects are as bright as those of any town of its size in the whole west. Its future depends entirely upon the efforts of its citizens.

Wainwright is going ahead at a rapid rate these days. A new \$18,000 school building is in the course of construction; a Catholic church has been started; a second drug store has begun business, and a new bakery is to be started soon. Town property is moving freely at good prices, and a lot of new houses are going up. Before the people realize it, Wainwright will be a city. Unity, enterprise and printers' ink are all that is required to effect this consummation.

TRIGGER AND TRAP

DUCKS PLUNGE

The Wainwright sports who have been out duck shooting all report the birds plentiful and some good eggs were secured. There are a good many floggers in evidence, however. These, the good sportsmen of course, do not molest. They fly very slowly and are worthless for the table.

RING

KETCHEL ALL IN

New York, Aug. 23.—Stanley Ketchel, the middle-weight title holder, has suffered a severe break-down and has been ordered to go to his home in Michigan for a long rest. His condition is so serious that it is doubted whether he will ever be able to indulge in a championship battle again. Ketchel is only 23 years old, but he has taken part in nearly 200 fights. He has made and spent a small fortune since he first came into the limelight by whipping Joe Thomas in California. He received \$15,000 for his battles with Jack O'Brien, \$12,000 for his two scraps with Papke, \$8,000 for his affair with Johnson, and about \$30,000 for other bouts of lesser importance.

SUGGESTS NEW WAY OF TRAINING

New York, Aug. 23.—In an article entitled "Lessons for the Athlete in the Jeffries-Johnson battle," published by the New York Medical Journal, Dr. G. Frank Lydston, of Chicago, criticizes training methods employed by handlers of pugilists. He declares that all a fighter needs in preparation for a fight is fighting. Rope skipping, weight handling and hand ball playing are a waste of time and energy, Dr. Lydston asserted. He says that Jeffries was whipped by his training before he stepped into the ring on July fourth. He writes further: "The Jeffries' groan was proof enough of his precarious physical condition, and this is not a case of hindsight. I predicted to a group of physicians precisely what subsequently happened at Reno. I laid particular stress upon Jeffries' irritability which was to me proof positive that his nervous system was not standing the gruelling work of training. Give me the athlete who smiles. Jeffries' already depleted nerve force had been exhausted by his training when he entered the ring at Reno. He was a nervous bankrupt. A boxer is an athlete specialist and should stick to his last training. Let him stick to his fighting. Let him fight, fight, fight until it is time to rest up before that battle."

MILLINERY Announcement

Immediately after the Winnipeg fall millinery openings, or about

SEPT. 5

our milliner will be here with a full range of fashionable fall millinery,

BETTS & CO.

Furniture! Furniture!

Owing to the lack of room we are offering some lines of our furniture at cost to make room for our fall stock.

The Hardware People If It's Hardware We Have It

Synopsis of Canadian North west Land Regulations.

Any person who is the sole head of a family, or any male over 16 years old may homestead a 1/4 section of available or unoccupied land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Land Office or his agent for the district. Entry by proxy may be made at any agency, on certain conditions, by a son, brother, son-in-law, daughter, brother-in-law, or other person of legal age.

A homesteader who has exhausted his good standing may pre-empt a 1/4 section alongside his homestead. Price \$2.00 per acre. Must reside six months in each of six years from date of homestead entry, including the time required to clear homesteaded land and cultivate fifty acres.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$2.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.

NOTICE

Notice is hereby given that in accordance with the provisions of The Irrigation Act, the undersigned has filed the necessary plans and memorial required by Sections 13 and 15 of the said Act, with the Commissioner of Irrigation, at Calgary, Alta.

The applicant applies for the right to divert sufficient water per second from Elbertone Creek on the southeast quarter of Sec. 33, township 43, range 5, west 4th meridian for irrigation purposes and for the right to construct the necessary works as shown by the memorial and plans filed, to enable the water so diverted to be used for the said irrigation purposes, on the following lands, viz:—The said southeast quarter of Section 33, the southwest quarter of Section 34, and the northwest quarter of 27, all in the said township and range.

Dated at Greenfield, Alta., this 28th day of July, 1910.
W. J. KELLY,
Applicant

LOCAL NEWS

Small & Co. offer the public some rare bargains in furniture in this issue of the Star.

Mrs. George Richardson left last week to spend a month with her mother at Conjugate Creek, Alberta.

Mr. Baird, inspector of Union Bank branches in Alberta, paid an official visit to the local branch last week. The business here was found in a very satisfactory condition.

Quite a number of our business men, despite the poor weather, were out duck shooting on Tuesday of last week, and report the birds very plentiful. Every one brought back a good bag to town.

The Citizens' Band have decided to give a dance in the Auditorium on Friday, the 9th of September. The Band orchestra will furnish the music, and it is expected that the dance will prove a very enjoyable affair.

Among the Wainwright people who attended the Edmonton Fair last week were Mr. and Mrs. S. Bowerman, W. B. Crawford, Walter Williams, George Reynolds, Conn. and Mrs. Graham, A. E. Mills, and T. G. Cook.

A number of the local tennis enthusiasts have been practicing hard for the tournament which will be held at Edmonton on Sept. 6th. Those who will probably take part in the tournament are H. G. Morrison, P. E. Ross, Dr. Watson and R. B. Davison.

The proprietors of the Wainwright Pharmacy have recently added to their fixtures another very handsome silent salesman. They have also put in a large stock of picture postcards, which they have displayed in an up-to-date manner.

Business men are to some extent judged by the class of stationery they use. If the Star printers does your work, you can be sure that your standing is A-1. If your stock of letter heads or envelopes is getting low, drop in and leave an order for some more.

Real Estate

on the Move

Property continues to move quite freely in Wainwright. The following deals have been reported by W. B. Crawford:

Lot 20, in block 34, has been transferred from E. Mills to Patrick O'Reilly. The price paid was \$75 cash. Lot 1 in block 52 has been sold by the Grand Trunk Pacific to Arthur Martin for \$75. Lot 15 in block 3, has been sold by Albert Grainger to A. C. Armstrong for \$150.

These deals were all negotiated by W. B. Crawford.

Irma News

Many residents of this district visited Edmonton this week. Among others were Mr. and Mrs. W. H. Head, J. Hammond, R. J. Take, J. B. Clark and son, Williamson, J. O'Leary and Miss McGregor.

Mrs. McLean, who has been visiting here returned to Edmonton on Monday.
